Research ARF Roles for Faculty/Students

Research Chart Reviewer

Intended for users needing very basic view-only access to review charts; no Research-specific access. Not recommended if they need SlicerDicer or any study-specific data.

- View only
  - Can view schedules, demographics, guarantor, billing info
  - Can view clinical summaries, past encounters, notes, orders, results
  - Can run reports in Reporting Workbench, but not SlicerDicer
- No ability to document
- No special Research access (have same access used for non-Research view-only staff)

Research Data Coordinator

Intended for users needing a bit more Research and Reporting access than a Chart Reviewer, but don't need to do any clinical documentation. Recommended for anyone part of a study team that needs view access but will not be documenting.

- Everything Chart Reviewers have plus:
  - SlicerDicer
  - Research-specific reports
  - View study enrollments
  - Release to study monitors
- No ability to document clinical data

Research Coordinator/Investigator (Non-Credentialed)

Standard access for Research Coordinators or Investigators that do not have a clinical license.

- Everything Data Coordinators have plus:
  - Write notes, pend orders, document flowsheets
  - View and manage patient enrollment in Research Studies
  - Run Research reports in Reporting Workbench, SlicerDicer
  - Release to Study Monitors
- Cannot register/schedule patients

Research Coordinator/Investigator w/ Scheduling (Non-Credentialed)

Exactly the same as Research Coordinator/Investigator (Non-Credentialed) plus ability to register/schedule.
